Home      Trails      About Us

Chelsea S. updated the "Just for you" feature by making it a pop-up over the Nearby Trails page instead of a blank page. This feature allows the user to match their fitness level with the appropriate hike in real time. This follows Heuristic #3: Let people gather as much information as they want, and no more than they want

About Us

Colin K. placed length, elevation and difficulty information side by side for UI improvements. Users usually read left to right instead of top to bottom. This follows **#Heuristic 6: Provide ways to try out different approaches**

He also added Gear and Clothing Recommendations button to the page for easier user access to other pages. This follows **#Heuristic 8: Provide a path through the task**

About Us

Diane N. changed layout from just pictures of the items to include pictures, title, and description in a row layout instead of a side-by-side layout to add more information for the user to decide if they want to bring such items on their hike. This follows heuristic #Heuristic 9: Encourage mindful tinkering

## Gear and Clothing Recommendations

### **Hiking Pole**

Your hiking trail has an elevation of over 200 ft. Hiking poles will help keep your balance during your hike!

### **Rain Jacket**

Based on the day's weather, there is a chance of rain. Don't forget to bring a rain jacket!

### **Water Bottle**

Your hike is estimated to take 2 hours. Don't forget to stay hydrated!

### **Sunscreen**

Remember to re-apply every hour.
